Topic / Issue: Quadro FXS to ISDN faxing

Written By: Steven Sismanis

It is possible to attach a Fax machine to an FXS port of an ISDN model Quadro to fax out your ISDN BRI service.

Inbound faxing through the same service to the FXS extension also worked successfully, calls were routed directly to the FXS extension.

Summary:

(If required) This testing was completed on a Quadro4Xi3 running f/w version 4.1.33.
